Alphabet has quietly become the most influential player in Silicon Valley health tech

- Former exec Stephanie Tilenius proposed a health tracking smartwatch to Google in 2012 but was rejected
- Alphabet now has a dozen separate health tech initiatives going on
- Former Google employees are at the core of many Silicon Valley health tech startups

Facebook acquires biometric ID verification startup Confirm.io

Posted Jan 23, 2018 by [Josh Constance](#) (@joshconstance)

[Next Story](#)

Facebook has confirmed to TechCrunch that it's acquired... [Confirm.io](#). The startup offered an API that let other companies quickly verify someone's government-issued identification card, like a driver's license, was authentic. The Boston-based startup will shut down as both its team and technology are rolled into Facebook, where it could help users who are locked
